Completion Certificate – Drakensberg Stator Unit 2

Dear Mr. Muthukumaran,

Herby I testify the completion of the assembly works of the generator stator Drakensberg Unit 2 dated 2017-04-06.

Detail of works:

- Removal of the old stator winding and stator core
- Re-assembly of the stator core inclusive a new clamping system
- Re-installation of 720 new stator bars including the circuit ring

The above works were done between the 2016-11-14 and 2017-04-06 in day and night shift.

Voith Hydro is very satisfied with the quality and the performance of Edision Electrical Works and looking forward to continue the relationship for the upcoming units.

Best Regards

Christian Matten
